MIDI-CV plays from QWERTY
keyboard. Click on MIDI-CV
screen to change input source.

The speed of the Ping Pong effect
can be changed by turning the
knob in 8VERT.

The sound starts when a key is
pressed and triggers the ADSR to
provide an envelope to the MIXER.

This patch came from
cosmicstomper.com and was created
September 2020 using VCV Rack
v1.1.6

Tested on an Apple iMac. If you
are using Windows or Linux, click
on the AUDIO-8 screen to select
audio out.

Blue patch cords are audio and
the red ones are control voltage.
